

Department of Psychological and Brain Sciences

Ph.D. Minor in Psychology Requirements

for Doctoral Students in Other Departments

Requirements:

1. A minimum of four (12 credits) Psychological and Brain Sciences (PSY) courses at the graduate-level (course must be listed in the *University Graduate School Bulletin*) is required. Our section of the *Bulletin* is available at <http://www.indiana.edu/~bulletin/iu/gradschool/2012-2013/programs/bloomington/psychological-and-brain-sciences/index.shtml>
2. The student must achieve a grade of at least B- in each course and an overall grade point average of at least 3.0.
3. The specific courses must be approved by a Psychological and Brain Sciences' faculty advisor and may include no more than one research course (PSY-P 895).

Instructions:

1. Visit the Psychological & Brain Sciences' faculty directory at <http://psych.indiana.edu/facdirectory.php> to find a faculty member whose research interests match your educational needs.
2. Contact the faculty member and determine if he or she will serve on your committee as your minor representative.
3. Follow your home department's procedures to declare the PhD minor. This may be as simple as updating your Advisory Committee.
4. Working with your minor representative, identify appropriate coursework.
5. Once you have completed the minor, Psychological & Brain Sciences can provide you, upon request, a memo confirming the completion of the minor. In most cases, your home department will contact as part of the process of preparing paperwork for your nomination to candidacy.
